

AuraLearn

AI-Adaptive Learning for K-12 Students Across the Arab World

CONFIDENTIAL INVESTMENT MEMORANDUM

Sector	EdTech
Stage	Seed
Geography	MENA
Funding Ask	USD 2,000,000

Executive Summary

AuraLearn is an AI-powered adaptive learning platform for K-12 students in the MENA region, delivering personalised Arabic and French instruction aligned with national curricula. Our proprietary recommendation engine adjusts lesson difficulty in real time based on each student's pace and engagement. Founded in 2022 and commercially launched in September 2023, AuraLearn has reached 50,000 active students across 12 partner schools in Tunisia, Morocco, and Jordan, generating USD 180,000 in ARR.

Problem

MENA K-12 classrooms average 38 students per teacher, leaving 60% of students under-challenged or left behind. Existing EdTech platforms (Khan Academy, Alef Education) are English-language-first and unaffordable for public schools. The UNESCO 2023 Learning Poverty Report identifies MENA as the region with the highest share of 10-year-olds who cannot read a simple text.

Solution

A tablet-first web application requiring only 2G connectivity, with fully localised Arabic and French adaptive curricula. Schools subscribe at USD 8 per active student per month, billed annually. Teacher dashboards provide real-time learning analytics. We have filed a provisional patent for our adaptive sequencing algorithm (Reference: TN-2024-IP-0041).

Founding Team

Name	Role	Background	LinkedIn
Sara Ben Ali	CEO & Co-Founder	Ex-Coursera Product Manager EMEA; MBA Stanford CS&E; Founder / Senior Arabic content developer	sbenali@auralearn.com
Khalil Mansour	CTO & Co-Founder	Ex-Google AI Paris; PhD Computer Science, Ecole Polytechnique / INRIA; patents in AI/ML	khalil.mansour@auralearn.com
Amira Chahed	CPO & Co-Founder	Ex-Pearson EdTech (10 years); K-12 curriculum specialist; UNESCO advisory committee	amira.chahed@auralearn.com

Advisory Board: Prof. Leila Nasser (MIT Media Lab, EdTech Research), Dr. Ahmed Tlili (UNESCO Institute for IT in Education), Marie-Claire Dupont (former CFO, Vivendi Education). Board of Directors: 3 members including one independent director — Ms. Fatima Zahra Benchekroun (impact investor, Maroc Numeric Fund). Board decisions require majority vote; no single founder holds a unilateral veto.

Market Sizing

Total Addressable Market: USD 4.2 billion — MENA K-12 EdTech (HolonIQ 2024 Report). Serviceable Addressable Market: USD 680 million — Arabic and French-medium schools in Tunisia, Morocco, Jordan, Egypt with technology budgets. Serviceable Obtainable Market: USD 34 million — urban and peri-urban schools, 200–2,000 students.

Revenue Model & Traction

School-level SaaS subscription: USD 8 per active student per month, billed annually. Revenue recognition is straight-line across the academic year (September–June). Upsell path: premium analytics module at USD 2 per student per month (launched Q1 2024).

Metric	Current Value
Annual Recurring Revenue (ARR)	USD 180,000
Active Students	50,000
Partner Schools	12
Monthly ARR Growth (Jan–May 2024)	14% month-on-month
Average Contract Value per School	USD 15,000 per year
Customer Acquisition Cost (CAC)	USD 1,200 per school
Customer Lifetime Value (LTV)	USD 45,000 (3-year avg. contract)
Net Revenue Retention	112% (upsell from student count growth)

Competitive Differentiation

Competitor	Key Weakness vs AuraLearn
Khan Academy	English-only; no Arabic adaptive curriculum; no school admin tools
Alef Education	USD 30+ per student per month; unaffordable for public schools; UAE-centric
Google for Education	Content-agnostic; no adaptive engine; not MENA localised

Milestones

Date	Milestone
Sep 2022	Incorporated in Tunisia; USD 400K seed from BIAT Ventures
Feb 2023	Beta with 3 pilot schools; 800 students
Sep 2023	Commercial launch; 8 schools; USD 80K ARR
Mar 2024	Jordan partnership; 4 additional schools; ARR reaches USD 180K
Q3 2024	Series A target: Egypt and Saudi Arabia; 100 schools; 200K students

ESG, Governance & Financial Projections

Environmental Commitments

AuraLearn operates exclusively on AWS carbon-neutral compute regions (EU-West and ME-South-1). Total annual cloud infrastructure carbon footprint: 0.8 tonnes CO2e, verified by a third-party carbon audit conducted by EcoAct (Audit Report No. EA-2024-0912, September 2024). Residual emissions offset through Gold Standard-certified reforestation credits in Morocco.

Social Commitments

58% of our student base is female, directly supporting gender equity in education. Named diverse leaders: Sara Ben Ali (CEO, Arab woman, co-founder), Amira Chahed (CPO, Arab woman, co-founder). 1,200 students in UNHCR refugee learning centres in Jordan receive full free platform access. All full-time employees (no gig labour). User data is processed under a published privacy policy (auralearn.tn/privacy), compliant with Tunisia Law No. 63-2004 on personal data protection.

Governance

Board: 3 members, majority-vote required — Sara Ben Ali (Executive Chair), Khalil Mansour (Non-Executive Director), Fatima Zahra Benchekroun (Independent Director, appointed 2023). Quarterly financial review by Deloitte Tunis. Cap table: Founders 60%, BIAT Ventures 25%, ESOP 15%.

Financial Projections

Projection assumptions: 14% MoM school acquisition growth based on Q1 2024 pipeline data; average ACV of USD 15,000 per school; average school size of 4,000 students; annual churn rate of 5% derived from Year 1 cohort data; gross margin of 72% (primarily AWS hosting and content costs).

Metric	Year 1 (2024)	Year 2 (2025)	Year 3 (2026)
Active Schools	25	65	150
Active Students	100,000	260,000	600,000
ARR (USD)	375,000	975,000	2,250,000
Gross Margin	72%	74%	76%
Operating Burn (USD)	420,000	380,000	150,000

Use of USD 2M Seed Round: 45% product engineering, 30% school sales team, 15% content localisation (Egypt, Saudi Arabia curricula), 10% operations.
