Financial Projections

FY2026 – FY2028 (3-Year Model)

Confidential — For Investor Use Only

June 2026 | Singapore

Assumptions

All figures in SGD unless noted. Exchange rate: 1 USD = 1.36 SGD.

Assumption	FY2026	FY2027	FY2028
B2C MAU growth (MoM avg)	18%	14%	10%
B2C conversion rate (MAU→paid)	21%	23%	25%
B2B enterprise clients	22	55	110
Avg seats per enterprise client	320	380	420
Therapist session volume (monthly)	2,800	8,200	18,500
Blended gross margin	68%	72%	75%
Monthly burn rate (SGD)	138,000	210,000	265,000

Revenue Projections (SGD)

Revenue Line	FY2026	FY2027	FY2028
B2C Subscription	520,000	1,340,000	2,980,000
B2B Enterprise	470,000	1,590,000	3,326,400
Therapist Marketplace	248,000	738,000	1,665,000
TOTAL REVENUE	1,238,000	3,668,000	7,971,400
YoY Growth	—	+196%	+117%

Cost Structure (SGD)

Cost Line	FY2026	FY2027	FY2028
COGS (hosting, therapist payouts)	396,160	1,027,040	1,992,850
Gross Profit	841,840	2,640,960	5,978,550
Sales & Marketing	420,000	880,000	1,594,280
R&D / Engineering	480,000	720,000	960,000
G&A	144,000	252,000	318,000
Total OpEx	1,044,000	1,852,000	2,872,280
EBITDA	(202,160)	788,960	3,106,270
EBITDA Margin	-16%	+22%	+39%

Cash Flow & Runway

With SGD 3.4M Seed funding and current burn of SGD 138K/month, NeuralCare has 24.6 months of runway. The model reaches EBITDA breakeven in Q2 FY2027 without requiring additional capital. A Series A of SGD 8–12M is projected for Q3 FY2027 to accelerate Indonesia and Thailand expansion.

Unit Economics

Metric	B2C	B2B (per seat)
Customer Acquisition Cost (CAC)	SGD 28	SGD 180 (per account: SGD 57,600)
Average Revenue Per User (ARPU)	SGD 179/yr (annual)	SGD 72/yr
Gross Margin per User	82%	79%
LTV (3-year retention basis)	SGD 420	SGD 185/seat
LTV : CAC Ratio	15.0x	18.2x (account-level)
Payback Period	1.9 months	3.2 months
